

UNITED STATES MEDICAL LICENSING EXAMINATION®

STEP 3 SCORE REPORT

This score report is provided for the use of the examinee.

Third-party users of USMLE information are advised to rely solely on official USMLE transcripts.

USMLE ID: [Redacted]

Test Date: September 28, 2018

The USMLE is a single examination program consisting of three Steps designed to assess an examinee's understanding of and ability to apply concepts and principles that are important in health and disease and that constitute the basis of safe and effective patient care. Step 3 is designed to assess whether an examinee can apply medical knowledge and understanding of biomedical and clinical science essential for the unsupervised practice of medicine, with emphasis on patient management in ambulatory settings. The examination consists of two days: Day 1, Foundations of Independent Practice (FIP), assesses an examinee's knowledge of basic medical and scientific principles essential for effective health care; Day 2, Advanced Clinical Medicine (ACM), assesses the examinee's ability to apply comprehensive knowledge of health and disease in the context of patient management and the evolving manifestation of disease over time. Results of the examination are reported to medical licensing authorities in the United States and its territories for use in granting an initial license to practice medicine. This score§ represents your result for the administration of Step 3 that began on the test date shown above.

PASS	This result is based on the minimum passing score recommended by USMLE for Step 3. Individual licensing authorities may accept the USMLE-recommended pass/fail result or may establish a different passing score for their own jurisdictions.
-------------	---

221	This score is determined by your overall performance on Step 3. For administrations between January 1, 2017 and December 31, 2017, the mean and standard deviation for first-time examinees from U.S. and Canadian medical schools were approximately 226 and 15, respectively, with most scores falling between 140 and 260. A score of 196 is recommended by USMLE to pass Step 3. The standard error of measurement (SEM)‡ for this scale is approximately six points.
------------	---

§Effective April 1, 2013, test results are reported on a three-digit scale only. Test results reported as passing represent an exam score of 75 or higher on a two-digit scoring scale.

‡Your score is influenced both by your general understanding of clinical medicine and by the specific set of items selected for this Step 3 examination. The Standard Error of Measurement (SEM) provides an index of the variation in scores that would be expected to occur if an examinee were tested repeatedly using different sets of items covering similar content.

INFORMATION PROVIDED FOR EXAMINEE USE ONLY

The Performance Profile below is provided solely for the benefit of the examinee.
These profiles are developed as assessment tools for examinees only and will not be reported or verified to any third party.

USMLE STEP 3 PERFORMANCE PROFILE

	Lower Performance	Borderline Performance	Higher Performance
EXAMINATION DAY 1			
Foundations of Independent Practice		xxxxxxxxxx	
EXAMINATION DAY 2			
Advanced Clinical Medicine (MCQ)		xxxxxxxxxxxxx	
Advanced Clinical Medicine (CCS)			xxxxxxxxxxxxxxxxxxx
PHYSICIAN TASK			
MK: Applying Foundational Science Concepts		xxxxxxxxxxxxxxx	
PC: Diagnosis			xxxxxxxxxxxxxxx
PC: Health Maint & Disease Prevent/Pharmacotherapy		xxxxxxxxxxxxxxx	
PC: Clinical Interventions/Mixed Mgmt	xxxxxxxxxxxxxxx		
Systems-based Practice/Patient Safety & PBLI	xxxxxxxxxxxxxxx		
SYSTEM			
Immune/Blood & Lymph/Endocrine/Multisystem		xxxxxxxxxxxxxxx	
Bhv Health & Soc Sci: Comm Skills/Ethics/Pt Safety	xxxxxxxxxxxxxxx		
Nervous System & Special Senses			xxxxxxxxxxxxxxxxxxx
Musculoskeletal Sys/Skin & Subcutaneous Tissue			xxxxxxxxxxxxxxxxxxx
Cardiovascular System		xxxxxxxxxxxxxxxxxxx	
Respiratory System		xxxxxxxxxxxxxxxxxxx	
Gastrointestinal System	xxxxxxxxxxxxxxx		
Renal/Urinary & Male/Female Sys & Pregnancy			xxxxxxxxxxxxxxxxxxx
Biostatistics & Epidemiology/Population Health	xxxxxxxxxxxxxxx		
PATIENT AGE			
Pediatric (Birth–17 yrs)		xxxxxxxxxxxxxxx	
Young Adult/Middle-aged Adult (18–54 yrs)		xxxxxxxxxxxxxxx	
Older Adult (55–74 yrs)		xxxxxxxxxxxxxxx	
Elderly (Older than 74 yrs)	xxxxxxxxxxxxxxx		

The above Performance Profile is provided to aid in self-assessment. The shaded area defines a borderline level of performance for each content area; borderline performance is comparable to HIGH FAIL / LOW PASS on the total test.

Performance bands indicate areas of relative strength and weakness. Some bands are wider than others. The width of a performance band reflects the precision of measurement: narrower bands indicate greater precision. The band width for a given content area is the same for all examinees. An asterisk indicates that your performance band extends beyond the displayed portion of the scale. Small differences in the location of bands should not be over interpreted. If two bands overlap, the performance in the associated areas should be interpreted as similar.

Descriptions of the topics covered in these content areas, as well as other topics covered on USMLE Step 3, can be found in the informational materials for USMLE Step 3 on the USMLE website (<http://www.usmle.org/step-3/#outlines>). With the exception of the Day 2 Advanced Clinical Medicine CCS profile, all profiles are based upon performance in the MCQ sections.

CCS—Computer-based Case Simulation; MCQ—Multiple-choice Question; MK—Medical Knowledge; PC—Patient Care; PBLI—Practice-based Learning and Improvement.
